

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-20-1806">http://dx.doi.org/10.21037/atm-20-1806</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	-
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We are applying for patent about using Feature Engineering (No. 202010324328.5) and DenseNet methods for EBL and EHL. After the notification to Grant Patent Right, we will upload the core code on Github as soon as possible. If editors or reviewers need the code for inspection, please contact us.
5	When will data availability begin?	After the notification to Grant Patent Right
6	When will data availability end?	-
7	To whom will you share the data?	Research workers who are interested in the area of estimating blood and haemoglobin loss.
8	For what type of analysis or purpose?	For analysis to evaluate the accuracy of blood loss estimation.
9	How or where can the data/documents be obtained?	Readers can download the core code on Github after the notification to Grant Patent Right.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
