

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-2246.	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data of analysis result in particular will be shared, including range of motion and instruments stress.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Informed consent form and imaging date will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the analytical models may be updated over time
7	To whom will you share the data?	Spinal surgeons who are interested in studies of finite element analysis.
8	For what type of analysis or purpose?	For analysis to evaluate the safety of cement-augmented pedicle screw instrumentation in osteoporotic patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 18122436960@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
