

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-3731	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The transcriptome sequencing data of our experimental cells in particular will be shared in NCBI database. The clinical information and the RSPO3 expression data of the patients included in our study will also be shared if requested.
4	Any other documents will be share?Such asstudy protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The informed consent form and analytic code will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated overtime.
7	To whom will you share the data?	Medical oncologists and gynecological clinicians who areinterested in studies of ovarian cancer.
8	For what type of analysis or purpose?	For investigation of the function and mechanism of RSPO3 in ovarian cancer.
9	How or where can the data/documents be obtained?	Emails could be sent to the addresses below to obtainthe shared data:liujih@mail.sysu.edu.cn; ZhangWei_sysucc@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks foreach request and then provide the data that

		could beshared.
