

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-5214	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data on FLT parameters, and patients' clinical features and LPFS will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical plan and R code used for analysis will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Within 5 years after publication date.
7	To whom will you share the data?	Radiation oncologists who are interested in personalized treatment for patients with LR-NPC.
8	For what type of analysis or purpose?	Analysis (especially pooled analysis) of FLT-PET focusing on predicting outcomes of LR-NPC treated with CIRT.
9	How or where can the data/documents be obtained?	Request of the data could be emailed to: jjade.lu@sphic.org.cn
10	Any other restrictions?	Detailed study protocol should be emailed along with the request of the data. We may carefully review the study protocol, and data will only be shared with well-designed studies.
