

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-20-2464">http://dx.doi.org/10.21037/atm-20-2464</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data including clinical and laboratory features, CT morphological features and quantitative CT characteristics will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and analytic code will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the quantitative CT technique may be updated over time.
7	To whom will you share the data?	Clinician and radiologists who are interested in the studies.
8	For what type of analysis or purpose?	To establish a model of deep learning-based quantitative CT and initial clinical features in prediction of the severity of COVID-19.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: shanfei@shphc.org.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
