

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-6180	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data and variables of prediction model will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date, since the data update over time.
7	To whom will you share the data?	The liver transplant surgeons and scientists.
8	For what type of analysis or purpose?	For analysis to survival prediction of post-transplant HBV-ACLF patients.
9	How or where can the data/documents be obtained?	The data can be obtained from the corresponding author on reasonable request through the mailbox yysysu@163.com .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
