

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-21-334	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The original data such as laboratory examination and pathological examination in the process of model generation were predicted.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, Ethical approval, and study protocol will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years within the publication date, since the Nomogram value may be updated over time.
7	To whom will you share the data?	Researchers who are interested in studies of predictive Nomogram in liver transplantation.
8	For what type of analysis or purpose?	To evaluate the role of the model in the risk of early recurrence of liver cancer after liver transplantation.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wangzhengxin@huashan.org.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
