

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-21-933">http://dx.doi.org/10.21037/atm-21-933</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The clinical characteristics, antimicrobial pattern, and the mechanism of drug resistance.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, the primers, and PCR conditions will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	To the researchers who are interested in studies of antimicrobial resistance, clinical and molecular epidemiology of <i>Chryseobacterium indologenes</i>
8	For what type of analysis or purpose?	For analysis of the epidemiology and antimicrobial resistance.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 2011220115@fudan.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
