

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-21-2040	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, we agree to upload the experimental original data, but the human genetic raw data detected by sequencing may not be uploaded.
2	If not, would you like to share the reason for your decision?	Because China's latest law does not allow the uploading of raw data related to human genetic information if it is against the law
3	What data in particular will be shared?	The experimental original data detected by PCR.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Yes
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical expert and surgeons who are interested in studies of PH.
8	For what type of analysis or purpose?	To study the pathogenesis of HPH.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data.
10	Any other restrictions?	No
