

## Data Sharing Statement

<b>Article Info</b>	http://dx.doi.org/10.21037/atm-21-1484	
<b>Item</b>	<b>Question</b>	<b>Authors' Response</b> (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The detail information of predictors and risk scoring system of blood transfusion for oral and oropharyngeal squamous cell carcinoma.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol and analysis methods of the study will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	The data availability will end in two years after the publication date, since the technique or guideline may be updated overtime.
7	To whom will you share the data?	Surgeons, anesthesiologists and researchers of oral cancer who are interested in this study.
8	For what type of analysis or purpose?	For future prospective randomized clinical trials and analysis to confirm the transfusion scoring system of oral cancer.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: c2013xs@163.com
10	Any other restrictions?	We can comprehensively consider the potential benefits and risks of each request, and then provide data that could be shared appropriately.
